

Rearranging the Puzzle of Security in the Eastern Mediterranean

Press Release No.5 / Date: 4.12.2023

RD5: Digitalization of Conflict Dyads

We are delighted to announce the completion of our fifth digital product titled Conflict Dyad Statistics. The deliverable has been concluded within the framework of the LowGeo programme and can be reached at:

<https://www.arcgis.com/apps/dashboards/9befbdaa776a4937910bbc64aa78fb28> [Visual Material].

The digital interactive tool offers enables users to examine and count the number of conflict instances in which state and non-state actors have engaged in conflict as allies and rivals from 2014-2020. This tool was designed using the Esri ArcGIS platform. General pie charts demonstrating conflict intensity and transborder spatial distribution are included and a 10-most intense conflicts are correlated with variables on casualties, type and spatial distribution.

For more information about the project, please contact:
